Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 31 January 2005.
- 2a) ☒ This action is FINAL. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Election/Restrictions

Applicant's election of Group I in the reply filed on January 31, 2005 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)). Accordingly, claims 10-14, 19 and 20 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on January 31, 2005.

Drawings

The drawing correction filed on January 31, 2005 has been approved.

Specification

The disclosure is objected to because the status of the parent applications on page 1 appears to be incorrect. Note that U.S. application 09/634,050 appears to be a continuation-in-part of 08/910,612 rather than merely claiming the benefit of 08/910,612.

Appropriate correction is required.

Claim Objections

Claims 15-18 are objected to because "and further so that . . . will resume said passive condition" on lines 13-15 of claim 15 are grammatically awkward and confusing. It is suggested that the applicant insert --causes-- following "first direction" on line 14

Art Unit: 3634

and change "will" to --to-- on line 15 to avoid confusion. Claims 16-18 are objected to because "seal" on line 1 of each of the claims should be changed to --combination-- to agree with the preamble of claim 15. Appropriate correction is required.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-4 and 6-8 are rejected under 35 U.S.C. 102(b) as being anticipated by Protzman. Protzman discloses, in figure 6, a rolling seal comprising a wall 40 generally in the form of a right circular cylinder as shown in figure 6, said wall being resiliently compressible; a sheet member 41 extending from said wall, said sheet member being resiliently coiled about at least a portion of said wall, wherein said sheet member is spaced from said wall where the sheet member engages the extension member 21, the extension member is stepped at 34, the wall 40 is solid as shown in figures 5 or 6.

Claim Rejections - 35 USC § 103

Claim 5 is rejected under 35 U.S.C. 103(a) as being unpatentable over Protzman as applied to claims 1-4 and 6-8 above, and further in view of Brown. Brown discloses, in figure 15, a seal having a wall 41r and an extension member 41s wherein the extension member is wedge shaped.

It would have been obvious to one of ordinary skill in the art to provide the extension member of Protzman with a shape, as taught by Brown, to better mount the extension member to the door stop.

Allowable Subject Matter

Claims 15-18 are allowed.

Response to Arguments

Applicant's arguments filed January 31, 2005 have been fully considered but they are moot in view of the new grounds of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. The applicant has amended claim 1 to include the new limitation of the sheet member being resiliently coiled about at least a portion of the wall.

Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 3634

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
